Our practical ministry program involves one-on-one mentoring with Nations Church pastors who will help develop and extend your ministry effectiveness. The ministry component of the course is also designed to grow your leadership so that you can be effective in all areas of your life.

Mission Trip

At Nations Church, a part of our mandate is to see nations reached with the message of Jesus Christ. As a direct response to this, Nations College offers a unique opportunity to go on a 10 day mission trip to Cambodia. This mission trip will provide you with a practical opportunity to apply all that you have learnt throughout the year. It includes teaching in Transform Cambodia centres, serving in our Nations Church Phnom Penh campus and being involved with a variety of ministry expressions in the community.

College has been so much more than just studying the Bible. What started out as a desire to simply learn more, quickly became a source of tremendous growth and a realisation of my passions.

Delving into the different books of the Bible has helped me understand more of God's Word and its context. I have also grown in understanding the heart behind ministry areas and have received invaluable firsthand input from our church pastors and significant leaders.

If you have a desire to explore God's Word, I'd encourage you to simply take that step of faith.

Being in a community with people just as excited to grow will stir your faith and you will leave empowered to keep walking the journey with Christ.

Nations College has provided a firm biblical foundation for my journey into young adulthood.

Before commencing College, I knew God was calling me to give my first year out of high school to Him. I was hesitant not to follow the status quo and enrol in university, but making the decision to put God first by enrolling in Nations College has been the best decision I could have made.

During this year, God has cultivated a new reverence in my heart for serving and this has fuelled my desire to explore all that God has placed on my life.

I have learnt what it means to be obedient to His Word and I have grown in faith, knowing I can trust in His plans and purposes for my life.

From week to week I am constantly being changed and shaped by the Holy Spirit to be a giant of the faith and to grow in intimacy with Him.

2020 has been a crazy year!

There have been all sorts of challenges as a result of the changing world around us, but I can confidently say that in doing Nations College, I have grown more in this season than I have in any other year of my life.

This year I have learnt so much about myself. I have not only matured as a person, but in my faith and love of God. I have seen such an increase in my understanding of God, much more than I could have ever imagined.

If you are considering doing Nations College in 2021, I would encourage you to jump in and just DO IT!

Enrolling in Nations College was an act of trust and surrender.

I had no idea just how much I needed College this year, but God did.

College has allowed me to explore my giftings and come to an understanding that they are unique and valuable. I have had opportunities to develop my gifts within Nations Church and to use them to bless the wider community through serving in Heroes Academy.

Throughout 2020, I have had many small victories in the quiet of my heart that have moved me from head knowledge to heart conviction about who God is, and who He has made me to be. I am being transformed daily by the Father's heart and through His unconditional love for me.

I have a newfound joy and confidence in who I am and who God has called me to be. I truly believe that this is just the beginning.

Nations College has provided a foundation in my life for all that is to come.
